SHARED COST ALLOCATION PLAN
FISCAL YEAR 2022**

CUMBERLAND VALLEY AREA DEVELOPMENT DISTRICT

Cost Allocation Plan For Year Ending June 30, 2022

INTRODUCTION

In accordance with 2CFR Part 200 formerly OMB Circular No. A-133, which provides standards and principles for the determination of federally aided program costs applicable to contracts and grants with state and local governments, this Cost Allocation Plan is written for the specific purpose of identifying those costs and outlining the accounting system in use.

It will be retained at the Cumberland Valley Area Development District Office for subsequent examination by federal, state and local units of government or any other interested persons.

This plan adheres to the instructions contained in the 2CFR Part 200 formerly "Cost Principles Applicable to Grants and Contracts with State and Local Government," formerly Bureau of the Budget Circular A-87 and the "General Services Administration, Office of Federal Management Policy, Federal Management Circular" (FMC 744). It further conforms to all policies of OMB Circular No. A-133, and follows the requirements in A-87, A-102 and A-122, if applicable.

The Cumberland Valley Area Development District Board of Directors has adopted operating policies to cover fiscal and personnel operations for this District.

Most Recent Adopted Audit, *i.e.*, Audit for Fiscal Year Ending June 30, 2020 is enclosed.

CVADD COST ALLOCATION PLAN

This Cost Allocation Plan is submitted to the Governor's Office for Local Development requesting review by the appropriate departments of the Commonwealth of Kentucky for the Cumberland Valley Area Development District's (CVADD) Shared Cost Rate Calculation for Fiscal Year 2022 as presented on page 9 of this document.

It shall be used to assure consistency in determining which costs are direct and which are shared, and as a method of allocating the shared costs to the program elements. Shared costs will be allocated to program elements in an amount equal to that program's direct wages and fringe benefits, times the ratio of total shared costs to total direct wages and fringe benefits.

Direct costs are those that can be identified specifically with a particular cost objective or program, and shared costs are those (a) incurred for a common or joint purpose benefiting more than one cost objective/program, and (b) not readily assignable to the cost objective specifically benefited, without effort disproportionate to the results achieved, as defined in "Office of Management and Budget" (OMB), 2CFR Part 200 formerly Circular A-87, and "Administration, Office of Federal Management Policy, Federal Management Circular" (FMC 74-4).

The cost categories to be used are as follows:

Direct Costs

1. Compensation of employees for time devoted to a specific program and related personnel burden.
2. Travel costs as identified by employees whose time is directly charged.
3. Consultant or contractor who performs work on a particular program(s).
4. Meeting expense when directly related to a program.
5. Any other costs(s) directly related to a specific program that is readily assignable.

Shared Costs

Cost incurred for a common or joint purpose benefiting more than one program element, and not readily assignable to the program specifically benefited, without effort disproportionate to the results achieved are considered shared.

Mixed and Shared Costs

Cost of certain salaries and related personnel burden, travel, registrations, meetings and printing/publications are sometimes mixed direct and shared.

Equipment Purchases

Equipment purchased specifically for a grant program will be expensed directly to the benefiting program in accordance with the grantor's instructions in the year acquired. Equipment purchases having a unit cost of more than \$5,000 will be capitalized and depreciated over its' estimated useful life. Equipment of a technological nature (computers) will be depreciated over three years using the straight line method. Depreciation on equipment benefiting all programs will be charged as a shared cost

Definitions of Shared Costs

Salary and Burden

This category includes a portion of the salaries/burden of the Executive Director, Finance Officer, Assistant Finance Officers, Receptionist, and any other person(s) whose time is so fragmented between programs that it would be impracticable to charge otherwise.

Travel

Any travel expense that cannot be readily identified to a specific program by the person incurring the expense.

Printing/Registration/Meetings

These costs are charges shared when they are not directly identifiable with any single program. They usually benefit the entire organizational function.

Communications

All communication costs are to be charged as shared costs because time consumption of direct costing would outweigh the benefits. This category includes telephones, fax machine, e-mail, postage, etc.

Consumable Supplies

Consumables are purchased in quantities whenever possible so as to have extra supplies when needed. These supplies are centrally located and are replenished by the bookkeeper in order that an adequate supply is on hand at all times. This is another example, which shows that the amount of money involved does not justify the time it would require to keep a record of each paper clip, pencil or other article used.

Equipment Rental and Office Space

These costs are charged as shared because of the interchangeability of tasks within a given space and the many administration areas of that space and usage.

Printing/Publication

Both are charged as shared whenever it is impossible or impracticable to charge directly.

Bonding and Insurance

These benefit all programs, are considered to be impracticable to track by program and will be charged as shared.

Miscellaneous and. Organizational Dues

Both generally represent items which are beneficial to all work programs, and are therefore charged as shared.

FORMAL BOOK OF ACCOUNTS

Journals

Deposit Log

Contains an entry for each receipt of money and serves as a posting source for the cash receipts in the computerized accounting system used by the district.

Cash on Hand Journal

This journal contains an entry for each check issued and each deposit made. End of month cash balance of this journal is to agree with month end balance of cash in the computerized accounting system used by the district.

General Journal

This journal is used to record and explain certain transactions of the district in detail.

Payroll Summary

This report is used to record each payroll check. It shows gross salary, proper distribution of amounts withheld from employee's wages and net wages paid on semi-monthly basis.

Ledgers

General Ledger

This ledger shows recent activity for each account. It shows debit, credit and balance columns.

SUBSTANTIVE RECORDS

1. Time Sheets

A monthly time sheet is maintained by each employee for recording the program, code and total hours worked per program. A percentage of direct and shared time for each program is determined and applied to the employee's monthly gross salary to compute salary cost prorated to each program. Annual or sick leave taken is recorded in the same manner. The time sheet is signed by the employee for approval by the department head in which works or, in some instances, by the Assistant Director or Executive Director. All time sheets are kept on file by the accounting officer.

2. Travel Expense Vouchers

Each employee is responsible for keeping his travel report up-to-date. It is totaled at the end of the month, dated, signed by the claimant and presented to the department head, Assistant Director or Executive Director for approval before reimbursement is issued.

3. Vacation and Sick Leave Request

A request for leave form is filled out and presented to the department head for approval. It is then either approved or disapproved by the Assistant Director or Executive Director. The request form is then filed.

4. Salary/Wage Distribution Sheet

Each employee's salary/wage costs are transferred to the Salary/Wage/Burden Distribution Worksheet after the time breakdown is calculated.

5. Salary/Burden Distribution Worksheet

Data from each monthly time sheet is used to calculate direct/shared cost incurred for each program per employee and is transferred to the Salary/Wage Distribution Worksheet.

6. Travel Distribution Worksheet

Travel costs are allocated to each program according to the determination of the employee traveling. All expense that is readily allocable to a specific program is designated as such.

CERTIFICATE OF INDIRECT COSTS

This is to certify that I have reviewed the indirect cost rate proposal submitted herewith and to the best of my knowledge and belief:

(1) All costs included in this proposal are to establish billing or final indirect costs rates for the period of July 1, 2021 through June 30, 2022 are allowable in accordance with the requirements of the Federal award(s) to which they apply and 2CFR Part 200 formerly OMB Circular A-87, "Cost Principles for State, Local, and Indian Tribal Governments." Unallowable costs have been adjusted for in allocating costs as indicated in the cost allocation plan.

(2) All costs included in this proposal are properly allocable to Federal awards on the basis of a beneficial or causal relationship between the expenses incurred and the agreements to which they are allocated in accordance with applicable requirements. Further, the same costs that have been treated as indirect or shared costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently and the Federal Government will be notified of any accounting changes that would affect the predetermined rate.

I declare that the foregoing is true and correct.

FY 2022 CAP DOCUMENTATION FORM

Name of ADD: Cumberland Valley Area Development District

Individual Completing Form: Whitney Chesnut

The plan submitted is:

Cost Allocation Plan Indirect Cost Rate Proposal Blended Plan

NOTE: Some plans may be blended and have elements of being a Cost Allocation Plan (CAP) and an Indirect Cost Rate Proposal (ICRP). These plans should meet all of the elements of a CAP and any additional ICRP elements applicable to the entity.

Please verify these required items are included in your CAP or ICRP:

- Introductory Statement explaining the plan and any specific information
- Statement assuring the district has a board-approved operation policies
- Roster of all work elements
- Chart of Accounts
- Formal books of entry
- Organization Chart sufficiently detailed to show operations
- Copy of audited financial statements or Executive Budget
- Certification of compliance with federal requirements, including reference to compliance with 2CFR Part 200
- A brief description of each allocated central service/shared costs
- Identification of unit rendering allocated/shared service and operations receiving the Service
- Items of Expense included in cost of allocated/shared services (allowable per 2CFR Part 200)
- Description of method used to distribute costs to all benefiting cost objectives

No changes in methodology of allocation or classification of costs from our FY 2021 CAP
 Changes from FY 2021 CAP are as specified (additional pages may be used if necessary)
